

## **Vetter Supply Lists**

The attached list has been compiled by the grade level teachers. This is a common cross section of materials that will be needed in all classrooms. It is important to note that there *may* be minor additions added to your child's particular classroom supply list as individual teacher requirements may differ as a result of teaching styles, subject matter, or classroom management. Further additions may be asked by individual teachers at the start of the school year. This list can also be found on the Vetter School website.
